

DIGITAL CIRCUIT DESIGN ENGINEER (Saskatoon)

Build your Career with Vecima Networks!

It is estimated that 60% of the world's cable-based internet traffic passes through Vecima Products.

Join us and help develop the Next Generation of Cable TV and Wireless Broadband Technology.

Become part of a Research and Development team that values creativity and innovation.

Vecima Networks, Inc. (TSE: VCM) is seeking a talented Digital Circuit Hardware Designer in order to meet the growing demand for world class products for the data-over-cable, digital video, and wireless broadband industries.

Successful candidates will be given the opportunity to contribute to the design and development of new products, and to work alongside a staff of industry leading people. They will possess a Computer or Electrical Engineering degree, Dual EE/Computer Science degrees, Electronics Engineering Technologist Diploma or equivalent with a minimum 3 years of related (non-academic) industry experience.

This position is located in our main Research and Development center in Saskatoon, Saskatchewan.

The successful candidate will have experience in several of the following areas:

- Development of hardware architectures, performance analysis, etc. for designs using high speed processors, high speed ADC/DACs, FPGAs, DDR/QDR memory, gigabit ethernet, bus interfaces, etc.;
- High speed digital circuit design for architectures described above;
- Schematic entry and multi-layer circuit board design and layout;
- Experimental verification and debugging of high speed digital circuits using equipment such as logic analyzers and pattern generators;
- Ethernet/wired/wireless cable networks, Linux, systems design, technical project team leadership;
- General electronics hardware and/or embedded software design;

Vecima Networks Inc. has a competitive compensation and benefits package, and strives to provide a challenging work environment that can foster skill development and personal career growth for all employees.

If you are looking for a challenging career move in digital hardware development, we want to hear from you! To apply, please direct your cover letter and resume, including salary expectations, to the contact below.
